Attestation of Compliance for Report on Compliance – Service Providers

Version 4.0

Revision 2

Publication Date: August 2023

PCI DSS v4.0 Attestation of Compliance for Report on Compliance – Service Providers

Entity Name: Telehouse International Corporation of Europe

Assessment End Date: 16 May 2024

Date of Report as noted in the Report on Compliance: 24 May 2024

Section 1: Assessment Information

Instructions for Submission

This Attestation of Compliance (AOC) must be completed as a declaration of the results of the service provider's assessment against the *Payment Card Industry Data Security Standard (PCI DSS) Requirements and Testing Procedures* ("Assessment"). Complete all sections. The service provider is responsible for ensuring that each section is completed by the relevant parties, as applicable. Contact the entity(ies) to which this AOC will be submitted for reporting and submission procedures.

This AOC reflects the results documented in an associated Report on Compliance (ROC). Associated ROC sections are noted in each AOC Part/Section below.

Capitalized terms used but not otherwise defined in this document have the meanings set forth in the PCI DSS Report on Compliance Template.

☐ Others (specify):

Provide a brief explanation why any checked services were not included in the Assessment:

Any sites not included in the assessment are not subject to PCI DSS, or are outside the regional scope.

Part 2b. Description of Role with Payment Cards (ROC Section 2.1)

Describe how the business stores, processes, and/or transmits account data.

TIE does not store, process or transmit any cardholder data. TIE provides co-location services for its customers who may process cardholder data. TIE does not have any access to customer systems where cardholder data may exist.

Describe how the business is otherwise involved in or has the ability to impact the security of its customers' account data.	This assessment covers the provision of co-location data centre services. TIE does not store, process or transmit any cardholder data. TIE does not have any access to customer systems where cardholder data may exist or have any other functions or services that may impact the security of customers' account data.
Describe system components that could impact the security of account data.	Physical security controls – failure of CCTV and/or access control systems could potentially impact the physical security of customers' account data (although logical security remains the full responsibility of the customers).

Part 2. Executive Summary (continued)

Part 2c. Description of Payment Card Environment

Provide a high-level description of the environment covered by this Assessment.

For example:

- Connections into and out of the cardholder data environment (CDE).
- Critical system components within the CDE, such as POI devices, databases, web servers, etc., and any other necessary payment components, as applicable.
- System components that could impact the security of account data.

TIE provides co-location physical hosting services and facilities for numerous customers; there is a strong likelihood that these customers could be processing cardholder data within these environments. For this reason, TIE are required to align their physical security related controls to PCI DSS for these co-location sites.

The services offered include the provision of the physical environment, the supporting environmental services (e.g. mains power, UPS, cooling, fire detection and suppression) and physical security for the environments.

Customer equipment is supplied and owned by the customer and TIE has no logical access to this equipment.

TIE offers two variants of this service in London and Paris:

1. Dedicated Facilities Management (DFM) – computer suites dedicated to a single customer, where access is controlled with, as a minimum, proximity access control readers and in some cases additional measures as specified by the customer.

2. Shared Facilities Management (SFM) – either single or multiple full equipment racks within a computer suite where the suite is access controlled by proximity access control readers for a number of customers.

Indicate whether the environment includes segmentation to reduce the scope of the Assessment.
(Refer to the “Segmentation” section of PCI DSS for guidance on segmentation)

☐ Yes ☒ No

Part 2d. In-Scope Locations/Facilities
(ROC Section 4.6)

List all types of physical locations/facilities (for example, corporate offices, data centers, call centers and mail rooms) in scope for this Assessment.

Facility Type	Total Number of Locations (How many locations of this type are in scope)	Location(s) of Facility (city, country)
Example: Data centers	3	Boston, MA, USA
Data Centre	5	London, United Kingdom
Data Centres	3	Paris, France

Part 2. Executive Summary (continued)

Part 2e. PCI SSC Validated Products and Solutions
(ROC Section 3.3)

Does the entity use any item identified on any PCI SSC Lists of Validated Products and Solutions[♦]?
☐ Yes ☒ No

Provide the following information regarding each item the entity uses from PCI SSC's Lists of Validated Products and Solutions:

Name of PCI SSC-validated Product or Solution	Version of Product or Solution	PCI SSC Standard to which Product or Solution Was Validated	PCI SSC Listing Reference Number	Expiry Date of Listing
Not Applicable				

[♦] For purposes of this document, "Lists of Validated Products and Solutions" means the lists of validated products, solutions, and/or components appearing on the PCI SSC website (www.pcisecuritystandards.org)—for example, 3DS Software Development Kits, Approved PTS Devices, Validated Payment Software, Payment Applications (PA-DSS), Point to Point Encryption (P2PE) solutions, Software-Based PIN Entry on COTS (SPoC) solutions, and Contactless Payments on COTS (CPoC) solutions.

Part 2f. Third-Party Service Providers
(ROC Section 4.4)

For the services being validated, does the entity have relationships with one or more third-party service providers that:

• Store, process, or transmit account data on the entity's behalf (for example, payment gateways, payment processors, payment service providers (PSPs, and off-site storage))	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Manage system components included in the entity's Assessment (for example, via network security control services, anti-malware services, security incident and event management (SIEM), contact and call centers, web-hosting companies, and IaaS, PaaS, SaaS, and FaaS cloud providers)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
• Could impact the security of the entity's CDE (for example, vendors providing support via remote access, and/or bespoke software developers).	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

If Yes:

Name of Service Provider:	Description of Services Provided:
Not Applicable	

Note: Requirement 12.8 applies to all entities in this list.

Part 2. Executive Summary *(continued)*

Part 2g. Summary of Assessment (ROC Section 1.8.1)

Indicate below all responses provided within each principal PCI DSS requirement.

For all requirements identified as either “Not Applicable” or “Not Tested,” complete the “Justification for Approach” table below.

Note: One table to be completed for each service covered by this AOC. Additional copies of this section are available on the PCI SSC website.

Name of Service Assessed: Data Centre - Pulsant Manchester NW-1

Section 3 Validation and Attestation Details

Part 3. PCI DSS Validation (ROC Section 1.7)

This AOC is based on results noted in the ROC dated (Date of Report as noted in the ROC 2024-05-24). Indicate below whether a full or partial PCI DSS assessment was completed:

- ☒ Full Assessment – All requirements have been assessed and therefore no requirements were marked as Not Tested in the ROC.
- ☐ Partial Assessment – One or more requirements have not been assessed and were therefore marked as Not Tested in the ROC. Any requirement not assessed is noted as Not Tested in Part 2g above.

Based on the results documented in the ROC noted above, each signatory identified in any of Parts 3b-3d, as applicable, assert(s) the following compliance status for the entity identified in Part 2 of this document (select one):

☐ **Compliant:** All sections of the PCI DSS ROC are complete, and all assessed requirements are marked as being either In Place or Not Applicable, resulting in an overall **COMPLIANT** rating; thereby (Service Provider Company Name) has demonstrated compliance with all PCI DSS requirements except those noted as Not Tested above.

☐ **Non-Compliant:** Not all sections of the PCI DSS ROC are complete, or one or more requirements are marked as Not in Place, resulting in an overall **NON-COMPLIANT** rating; thereby (Service Provider Company Name) has not demonstrated compliance with PCI DSS requirements.
Target Date for Compliance: YYYY-MM-DD
An entity submitting this form with a Non-Compliant status may be required to complete the Action Plan in Part 4 of this document. Confirm with the entity to which this AOC will be submitted before completing Part 4.

☒ **Compliant but with Legal exception:** One or more assessed requirements in the ROC are marked as Not in Place due to a legal restriction that prevents the requirement from being met and all other assessed requirements are marked as being either In Place or Not Applicable, resulting in an overall **COMPLIANT BUT WITH LEGAL EXCEPTION** rating; thereby Telehouse International Corporation of Europe has demonstrated compliance with all PCI DSS requirements except those noted as Not Tested above or as Not in Place due to a legal restriction.
This option requires additional review from the entity to which this AOC will be submitted.
If selected, complete the following:

Affected Requirement	Details of how legal constraint prevents requirement from being met
9.2.1.1	Data Protection Act (France), GDPR - restricts CCTV recordings to a maximum of 30 days.

Part 3. PCI DSS Validation *(continued)*

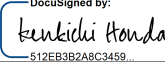

Part 3a. Service Provider Acknowledgement

Signatory(s) confirms:

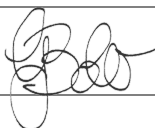

(Select all that apply)

<input checked="" type="checkbox"/>	The ROC was completed according to <i>PCI DSS</i> , Version 4.0 and was completed according to the instructions therein.
<input checked="" type="checkbox"/>	All information within the above-referenced ROC and in this attestation fairly represents the results of the Assessment in all material respects.
<input checked="" type="checkbox"/>	PCI DSS controls will be maintained at all times, as applicable to the entity's environment.

Part 3d. PCI SSC Internal Security Assessor (ISA) Involvement

If an ISA(s) was involved or assisted with this Assessment, indicate the role performed:	<input type="checkbox"/> ISA(s) performed testing procedures.
	<input type="checkbox"/> ISA(s) provided other assistance. If selected, describe all role(s) performed:

Part 4. Action Plan for Non-Compliant Requirements

Only complete Part 4 upon request of the entity to which this AOC will be submitted, and only if the Assessment has Non-Compliant results noted in Section 3.

If asked to complete this section, select the appropriate response for “Compliant to PCI DSS Requirements” for each requirement below. For any “No” responses, include the date the entity expects to be compliant with the requirement and provide a brief description of the actions being taken to meet the requirement.
